### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Edward Bishop on April 16, 2007.

The application has been amended as follows:

- Claim 1 be has been replaced with the following:

A display device for supporting picture frame pieces, said device comprising:

a frame member having an internal section and a front face comprising at least three vertical panels lying within a front plane and spaced apart from each other to form a plurality of gaps therebetween, wherein a first plurality of picture frame pieces are removably attached to said vertical panels via fasteners;

at least two rotating members mounted to the frame member and each rotating member comprising an X-shaped cross-section and four continuous even surfaced panels that rotate via a central axis, wherein a second plurality of picture frame pieces are removably attached to said rotating members via fasteners; and,

wherein the central axis of said at least two rotating members lies within a back plane and each of said plurality of gaps in said front face is occupied by one of said

Art Unit: 3692

rotating members that can be rotated to a position to form a substantially contiguous wall with said front face.

- Claims 3-5, 7, 8, 11-22 have been canceled.

The following is an examiner's statement of reasons for allowance: The instant invention is allowed over the prior art because the prior art does not anticipate or obviate a rack having fixed panel portions and rotating panel portions each having a pieces of picture frames mounted thereto, wherein the rotating panel portions are disposed within a housing formed partially by the fixed panels. The instant invention is drawn to the display of picture frame pieces and moldings, and the attached picture frame pieces/moldings are a claimed part of the invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure:

- US Patent No. Des. 418,330 to Schumacher
- US Patent No. 5,494,347 to Poortvliet et al.
- US Patent No. 4,490,932 to McIntire

Art Unit: 3692

- US Patent No. 3,868,157 to Robinson
